Address (if different from child) _____

Phone Number (if different from child) _____

EMERGENCY NOTIFICATION INFORMATION

During the 2011-2012 school year, we will be using email and a diocesan-wide phone messaging system for emergencies. We will be using email to send out interim reports on each student, the weekly parent bulletin and other important school information. The phone messaging system will be used to alert you to early dismissals for inclement weather or to emergency closings.

It is extremely important that we have your correct information.

Family Name _____

Students' Names & Grades:

Address _____

Home Phone _____

Email Address _____

Email Address _____

Please list two daytime phone numbers (work or cell) that the emergency messaging system can use to contact you in the event of an emergency or an early dismissal. Please do not use a general work number that is answered by an auto attendant. It is important to list direct numbers only.

Only list two numbers as the system can only accommodate these additional two numbers.

St. Ann Catholic School

Technology Acceptable Use Policy for Students

Educational Purpose

Access to technology-based tools and information, and the development of Information Technology Skills are fundamental requirements for preparing students to take their place in a technological society. Our school, and the Diocese of Memphis, provides student access to technology systems and to the Internet and other on-line services. This availability of technology and on-line systems is intended to enhance the educational process.

Responsibility

The use of our technology must be in the support of education and research activities consistent with the objectives and educational policies of our school. A student's use of our technology and on-line services is a privilege, not a right. It is our administration's intent to set reasonable requirements for student acceptable and responsible use of our technological resources. It is the student's responsibility to abide by these requirements.

Content Management

Along with a wealth of information resources, the Internet and its subsystems also provides the availability of material that may not be of educational value, or may not be appropriate in a school setting. Our administration has taken, and will continue to take, precautions to restrict access to information that it deems inappropriate for a school setting. Additionally, student Internet use in our school will be a supervised activity.

Acceptable Student Use

All users are expected to abide by general rules and network etiquette. These include, but are not limited to the following:

1. Be respectful of others in all communications. The use of inappropriate language, including vulgarities, profanities, obscenities, harassment, racial slurs, etc. will not be tolerated.
2. Do not reveal your identity, address, phone number, or other personal information. Do not reveal the identity or personal information of anyone else.
3. Comply with all federal, state, and local laws and regulations. The transmission or receipt of any material in violation of these laws and regulations is prohibited. This includes, but is not limited to:
 - 3.1 Deliberate violation of copyright, or other use of another person's intellectual property without his prior written approval and/or giving proper acknowledgements
 - 3.2 Accessing material that advocates violence or discrimination, such as hate literature
 - 3.3 Activities that are disruptive to our technology, systems, or services
 - 3.4 Accessing and/or transmission of obscene, pornographic, or sexually explicit material
 - 3.5 Attempts to access or enter areas of restricted information
 - 3.6 The use of our systems for commercial or political activities

Privacy/Security

Students should not expect that files that are sent or stored on our systems would be private. Files and technology-based activities may be reviewed and tracked in order to ensure compliance with this Student Acceptable Use Policy.

All students are responsible for any and all activities that can be traced to the student's user account. Therefore,

1. Never share your logon name or password with anyone.
2. Do not leave your user account open and unattended on any workstation.
3. Do not attempt to logon to our systems using an alias or any other logon except the one assigned to you by our system administrator.

If a student discovers an apparent breach in security, he or she is to notify a teacher or system administrator immediately.

Student e-mail, including accessing third-party e-mail accounts, is prohibited. On-line chat is prohibited.

Vandalism

For the purposes of this policy, vandalism is defined as any attempt to harm or destroy computer equipment, data, programs, configuration settings, or system functionality. This includes, but is not limited to, changing configuration settings, changing any system control settings, attempting to access system resources with a logon other than that assigned to you, or the release or use of virus programs or Trojan horse software.

Failure to Comply

Failure to comply with this Technology Acceptable Use Policy for Students will be considered a disciplinary infraction.

Non-Liability

We make no warranties of any kind, whether expressed or implied, for technical services, and will not be held responsible for any loss of data resulting from delays and service interruptions. We make no guarantee that our systems will be error free, and we are not responsible for the accuracy or quality of information obtained through our systems. All users make use of information at their own risk.

I/We hereby agree to abide by these policies and procedures. I authorize the administration to issue a student user account for my child/dependent.
